## Member Appreciation Tour: A Special Look at Metro-North's Croton Harmon Shop

The Electric Railroaders' Association is pleased to announce a return visit to Metro-North's Croton Harmon Shop. This shop, located in Croton-on-Hudson, is one of MTA Metro-North's major rail maintenance complexes. It was built in the early 1900s for the New York Central Railroad and serves a variety of Hudson Line rolling stock including M8s, M7s, diesel locomotives and more. The facility received a major renovation in 2010 which included the addition of three new equipment maintenance facilities, expanded train storage capacity and extensive upgrades to their maintenance equipment and they are currently undergoing another large renovation. Croton-Harmon is so advanced that it even won an international Brunel Award in 2011 for outstanding visual design in railway transportation.
