INTERBOROUGH SUBWAY SPECIAL

The once-familiar IRT Standard car, often called "Lo-y" cars, for many years provided virtually all service on the IRT subway lines in New York City. All these well-remembered cars have now been retired and none have been in main-line service since the early days of 1964!

We shall cover the subway and elevated lines of the IRT system in Manhattan and The Bronx, with visits to yards and other out-of-the-way locations. The connecting tunnels between the 42nd Street Shuttle and the north-south lines part of the original subway system, closed to revenue traffic for many years, will be covered. Many scenic photo stops are scheduled.

It is planned to cover the City Hall Station, Lexington Ave, Pelham, Dyre Ave, White Plains Road, 3rd Ave Elevated, Lenox Ave and 7th Ave Lines. A special stop will be made at the 148th St - Lenox Terminal Station.

LEAVES IRT GRAND CENTRAL SHUTTLE STATION 11:15AM - NO LUNCH STOP IS SCHEDULED
