FAREWELL TO THE DOUBLEDECK

LONG ISLAND RAIL ROAD

**Saturday
May 8th**

The DOUBLEDECK - an attempt to solve the Long Island's massive rush-hour passenger crush will soon be a thing of the past. This unusual inspection trip using Long Island doubledecker cars exclusively will highlight a memorable day. Cars painted in different paint schemes will be used and it is planned to use one of the earlier and smaller experimental models. High spot on the excursion will be the very first operation of doubledecker cars over the newest electrified line in North America - from Mineola to Huntington! In addition, the special will visit West Hempstead, Belmont Park, Long Beach, Long Island City, East Williston and Port Washington. Seating capacity is limited and you are urged to order tickets early.
