

**Electric Railroaders'
Association, Inc.**

LONG ISLAND RAIL ROAD

Morris Park Shop Tour

Sept. 6, 13, & 20, 1980

The Electric Railroaders' Association in co-operation with the Long Island Rail Road has planned what should be a very interesting tour of the Morris Park Shop facility. On this three hour tour we will have the opportunity to inspect and photograph the electric passenger car and truck shop, diesel locomotive and machine shop, passenger car shop, roundhouse and the shop yard. If possible the railroad will spot one of their G.E. 25-ton shop locomotives for photographs.

These tours have a very limited capacity on each of the three days and we urge you to order your tickets early.

Tours start at 10:00 AM sharp at main entrance to shop facility on 121st Street, just north of Atlantic Avenue.
